

Testing Report - Application Health Check - SC_001

Report Timestamp: 07-17-2025, 15:40:25

Testing URL: <https://bigappmarket-dev.appiancloud.com/suite?signin=native>

Testing Environment: QA

Current Network Speed: Test Test

Test Introduction

To verify health of the application by clicking all buttons, tab, link texts, and navigating to different pages. The report aims to confirm the application's stability, responsiveness, and overall functional integrity, ensuring a seamless user experience across its various features and pages.

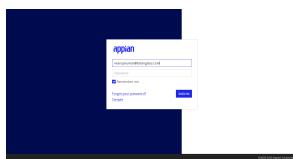

Test Methodology

This document outlines a robust test methodology for comprehensively verifying the existence and accessibility of all user interface elements, tabs, and pages within an application. By integrating the Page Object Model (POM) for maintainable test code and a Test-Driven Development (TDD) approach for early defect detection and precise requirements definition, this methodology ensures high-quality and reliable test automation.

Test Summary

- * To ensure proper handling and acceptance of input within the username field.

Result: Passed

Right click on image and select Open link in new tab

- * To ensure proper handling and acceptance of input within the password field.

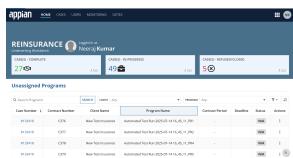

Result: Passed

Right click on image and select Open link in new tab

- * Initiating the login sequence via the Login button.

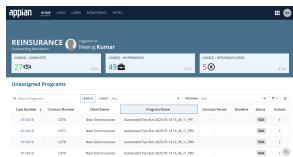

Result: Passed

Right click on image and select Open link in new tab

- * Initiating navigation via the 'Home' text link.

Result: Passed

Right click on image and select Open link in new tab

- * Interacting with the Cases link text

Result: Passed

The screenshot shows a list of unassigned programs. The columns include Case Number, Client Name, Program Number, Current Period, Deadline, Status, and Actions. There are four entries:

Case Number	Client Name	Program Number	Current Period	Deadline	Status	Actions
PR13348-1	CEN	New Reinsurance	Automated Risk 2025-01-01, PR1	2025-01-01	1	
PR13348-2	CEN	New Reinsurance	Automated Risk 2025-01-01, PR2	2025-01-01	1	
PR13348-3	CEN	New Reinsurance	Automated Risk 2025-01-01, PR3	2025-01-01	1	
PR13348-4	CEN	New Reinsurance	Automated Risk 2025-01-01, PR4	2025-01-01	1	

Right click on image and select Open link in new tab

* Selecting the Users link text

Result: Passed

The screenshot shows a list of users categorized by role. The columns include Role, User, Underlying Name, Department, Email, and Manage. There are several entries:

Role	User	Underlying Name	Department	Email	Manage

New Test - 5	Automated	Test	CEN	New Test - 5	Automated Risk	5	OK	2025-01-01 10:00:00	5	2025-01-01 10:00:00	OK

Right click on image and select Open link in new tab

* Clicking Notes link text

Result: Passed

The screenshot shows a list of notes. The columns include Note ID, Note Title, and Note Content. There are several entries:

Note ID	Note Title	Note Content
1	Test Note 1	Test content for note 1.
2	Test Note 2	Test content for note 2.
3	Test Note 3	Test content for note 3.
4	Test Note 4	Test content for note 4.
5	Test Note 5	Test content for note 5.
6	Test Note 6	Test content for note 6.
7	Test Note 7	Test content for note 7.
8	Test Note 8	Test content for note 8.
9	Test Note 9	Test content for note 9.
10	Test Note 10	Test content for note 10.
11	Test Note 11	Test content for note 11.
12	Test Note 12	Test content for note 12.
13	Test Note 13	Test content for note 13.
14	Test Note 14	Test content for note 14.
15	Test Note 15	Test content for note 15.
16	Test Note 16	Test content for note 16.
17	Test Note 17	Test content for note 17.
18	Test Note 18	Test content for note 18.
19	Test Note 19	Test content for note 19.
20	Test Note 20	Test content for note 20.

Right click on image and select Open link in new tab

* Navigating back to Home

Result: Passed

The screenshot shows a list of unassigned programs. The columns include Case Number, Client Name, Program Number, Current Period, Deadline, Status, and Actions. There are four entries:

Case Number	Client Name	Program Number	Current Period	Deadline	Status	Actions
PR13348-1	CEN	New Reinsurance	Automated Risk 2025-01-01, PR1	2025-01-01	1	
PR13348-2	CEN	New Reinsurance	Automated Risk 2025-01-01, PR2	2025-01-01	1	
PR13348-3	CEN	New Reinsurance	Automated Risk 2025-01-01, PR3	2025-01-01	1	
PR13348-4	CEN	New Reinsurance	Automated Risk 2025-01-01, PR4	2025-01-01	1	

Right click on image and select Open link in new tab

* Selecting the 'Case Number' navigation link.

Result: Failed

The screenshot shows the 'Case Details' page for Case Number PR13348-1. The page includes sections for Stakeholders, Case Details, Program Type, and Actions. The 'Case Details' section shows the case number, client name, program number, current period, deadline, and status. The 'Program Type' section shows the program type as 'Automated Risk'. The 'Actions' section includes a 'Associate' button.

Right click on image and select Open link in new tab

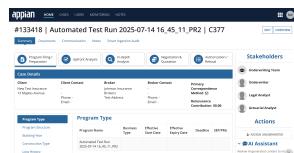

Reason: Test case failed due to No web element found for test step - : [Selecting the 'Case Number' navigation link.].

Element locator used - :

```
//*[@id="XrayComponentSelectionManager"]/div/div[2]/div[1]/div/div/div/div[2]/div/div[2]/div/table/tbody/tr/td/div/p/a[txt()=']
```

* Clicking Summary tab to verify its content.

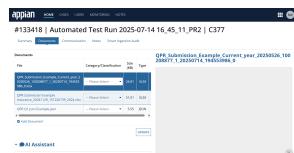

Result: Passed

Right click on image and select Open link in new tab

* Clicking Documents tab to verify its content.

Result: Passed

Right click on image and select Open link in new tab

* Clicking Communication tab to verify its content.

Result: Passed

Right click on image and select Open link in new tab

* Clicking Notes tab to verify its content.

Result: Passed

Right click on image and select Open link in new tab

* Clicking SmartIngestionAudit tab to verify its content.

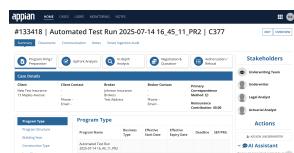

Result: Passed

Right click on image and select Open link in new tab

* Navigating back to Summary tab.
